

SECTION 1. TITLE; SEWER USE AND SEWER SERVICE CHARGE

1.01 INTRODUCTION AND GENERAL PROVISIONS

This Ordinance regulates the use of private sewers and drains, and the discharge of waters and wastes into the public sewerage systems within the Pittsfield Sanitary District No. 1 of the Town of Pittsfield. It provides for and explains the method used for levying and collecting wastewater treatment service charges, sets uniform requirements for discharges into the sewer system, and enables the District to comply with administrative provisions, water quality requirements, and other discharge criteria which are required or authorized by the Green Bay Metropolitan Sewerage District, the State of Wisconsin or Federal law. Its intent is to derive the maximum public benefit by regulating the characteristics of wastewater discharged into the sanitary sewer system.

This Ordinance provides a means for determining wastewater volumes, constituents and characteristics, the setting of charges and fees, and the issuing of permits to certain users. Revenues derived from the application of this Ordinance shall be used to defray the District's costs of operating and maintaining adequate wastewater collection and pumping systems and to provide sufficient funds for capital outlay, debt service costs, and capital improvements. The charges and fees herein have been established pursuant to requirements of the Wisconsin Statutes. This Ordinance shall supersede any previous District Ordinance, Rules or Regulations; and shall repeal all parts thereof that may be inconsistent with this

Ordinance. If there is any conflict between this Ordinance and any applicable Statute, the State Statute shall be controlling, except to the extent that this ordinance may be more restrictive.
